Sustainable

Short term

**Energy
crisis**

We are at an
inflection point

Long term

**Climate
crisis**

Life Is On

Schneider
Electric

To tackle the climate crisis, we must **decarbonize**

4 – 6°C

Global Carbon Budget (2019); IPCC (2020), ETC, Making clean electrification possible (2021), Schneider Electric Research Institute
View includes industry process emissions, changes in land uses, such as deforestation

Life Is On

Schneider
Electric

Decarbonizing supply is just one side of the energy coin...

Replace

energy supply

45%*

Offsite renewables purchasing
PPAs

Onsite renewables generation
Solar, microgrid, storage

*Contribution to net-zero energy by 2050

Life Is On

Schneider
Electric

We need to look at both sides... and tackle **energy demand**

Reduce

for efficiency and
circularity

25%*

Design & Build for Low Carbon

3D-6D BIM design to reduce embodied carbon

Measure, Monitor & Save

Connected systems and software for
real-time data, insights and automation

Circularity for sustainability

Choose green by design, with extended life,
efficient usage & clean disposal options

*Contribution to net-zero energy by 2050

Life Is On

Schneider
Electric

Electricity 4.0

is our **vision** to help our customers achieve their energy and sustainability goals **from strategy to execution**, globally and locally
