# METLEN Energy & Metals Presence in Romania – M RENEWABLES

19<sup>th</sup> November 2024

  CAMERA DI COMMERCIO  
ITALIANA PER LA ROMANIA

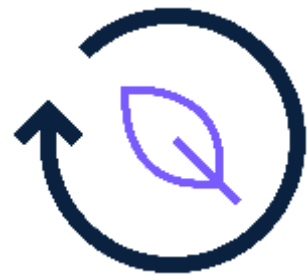

**ENERGY  
EFFICIENCY**

**BUCHAREST**

# Two strong sectors, One stronger company

Our transformation into METLEN Energy & Metals unlocks new perspectives.

Energy

Metals

Connected and complementary through synergies, our sectors manage to unlock value from multiple sources.

# METLEN Energy & Metals

## At a glance

### Broad Presence

**2** Business Sectors

**40** Countries of Activity

**50** Industrial Power Plants & Renewable Units

### Driving the Economy

**€5.49** bn. euro turnover

**3%** Contribution to the GDP

**€3,539M** In total exports

**€120M** Environmental costs

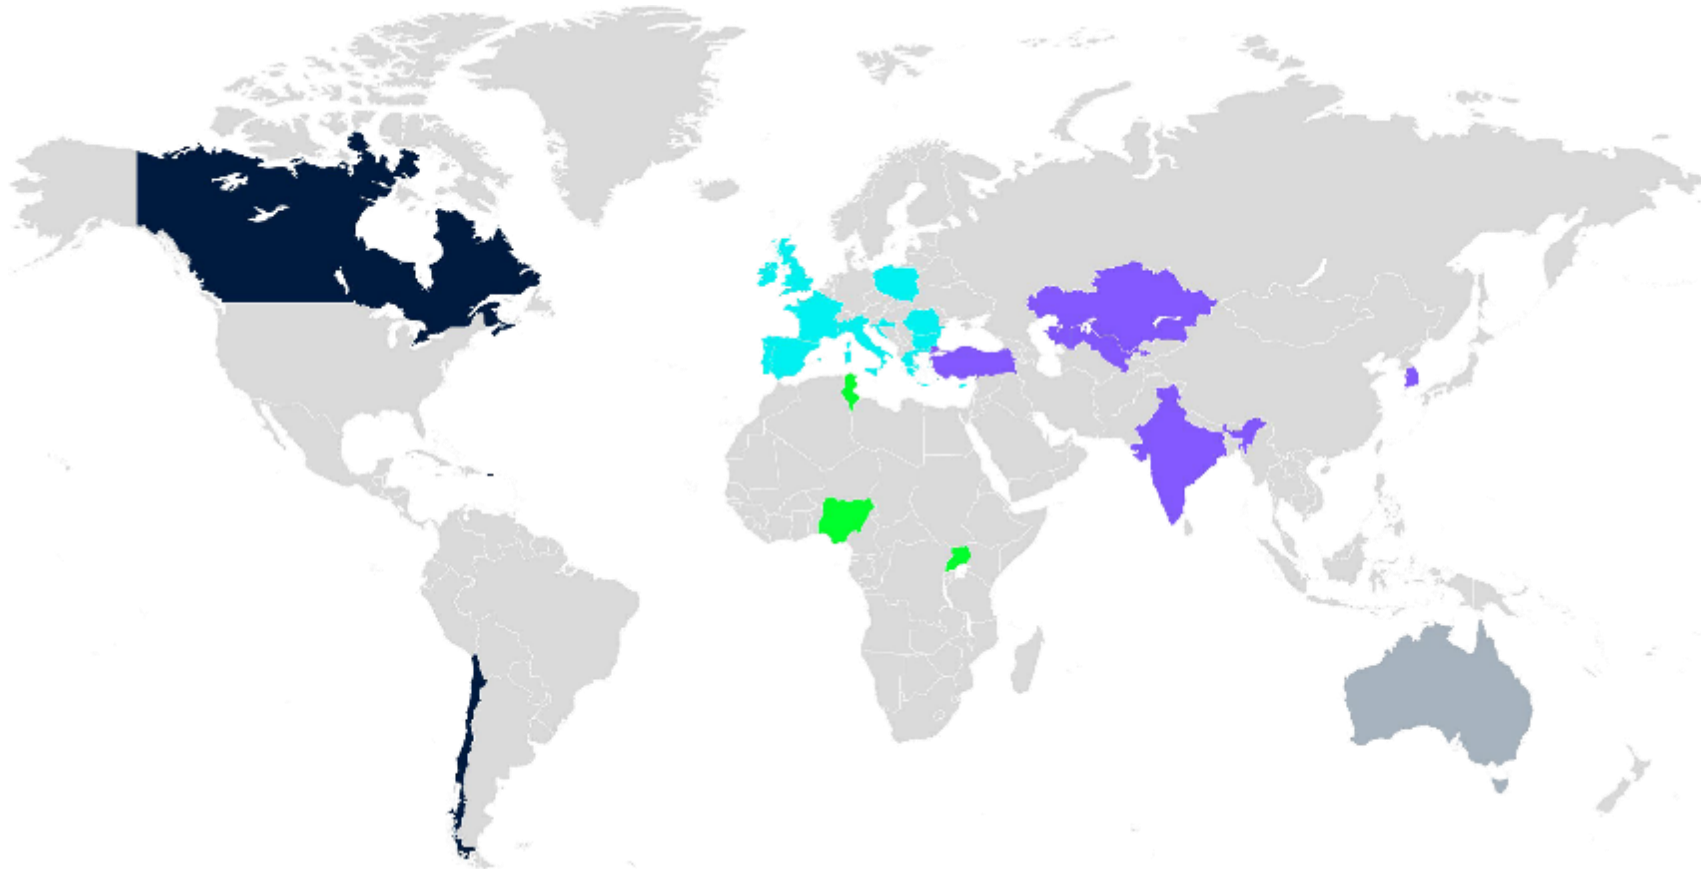

### EMPOWERING SOCIETY

**6,583** Direct & Indirect Employees

**9,543** Suppliers (From Greece & Abroad)

**€3,058M** Total Social Footprint

# Countries of operation

## M Renewables

A leading integrated developer and EPC contractor for solar energy, energy storage, wind energy and hydrogen projects with global experience, operating in 5 continents

### EUROPE

Bulgaria	Greece	Portugal
Croatia	Ireland	Romania
Cyprus	Italy	Spain
France	Poland	UK

### ASIA

India	Kazakhstan	Uzbekistan
S. Korea	Turkey	

### AFRICA

Nigeria	Tunisia	Uganda
---------	---------	--------

### AMERICA

Canada	Chile	Puerto Rico
--------	-------	-------------

### OCEANIA

Australia

# The Importance of the Romanian Market - Figures

**1,045 MW**

Already obtained  
building permit

**1.6 GW**

**1,045 MW**

Total Capacity in  
Development from which  
1,045 MW already  
obtained the ATR

The Pipeline is widely spread across  
the Country with the highest  
concentration being in Southern  
Romania

**817 MW**

Completed the  
development and  
now are under  
construction/already  
constructed

# METLEN | Romanian Portfolio

**2 GW**

## of Solar PV

- Under development and construction
- Presence mainly in South Romania

**350 MW**

## of Energy Storage

- 300 MW under development, 200 MW close to RTB
- 50 MW project is on a Ready to Build phase

## Wind Energy

- Under evaluation

## Green Hydrogen

- Under evaluation our first 2 projects

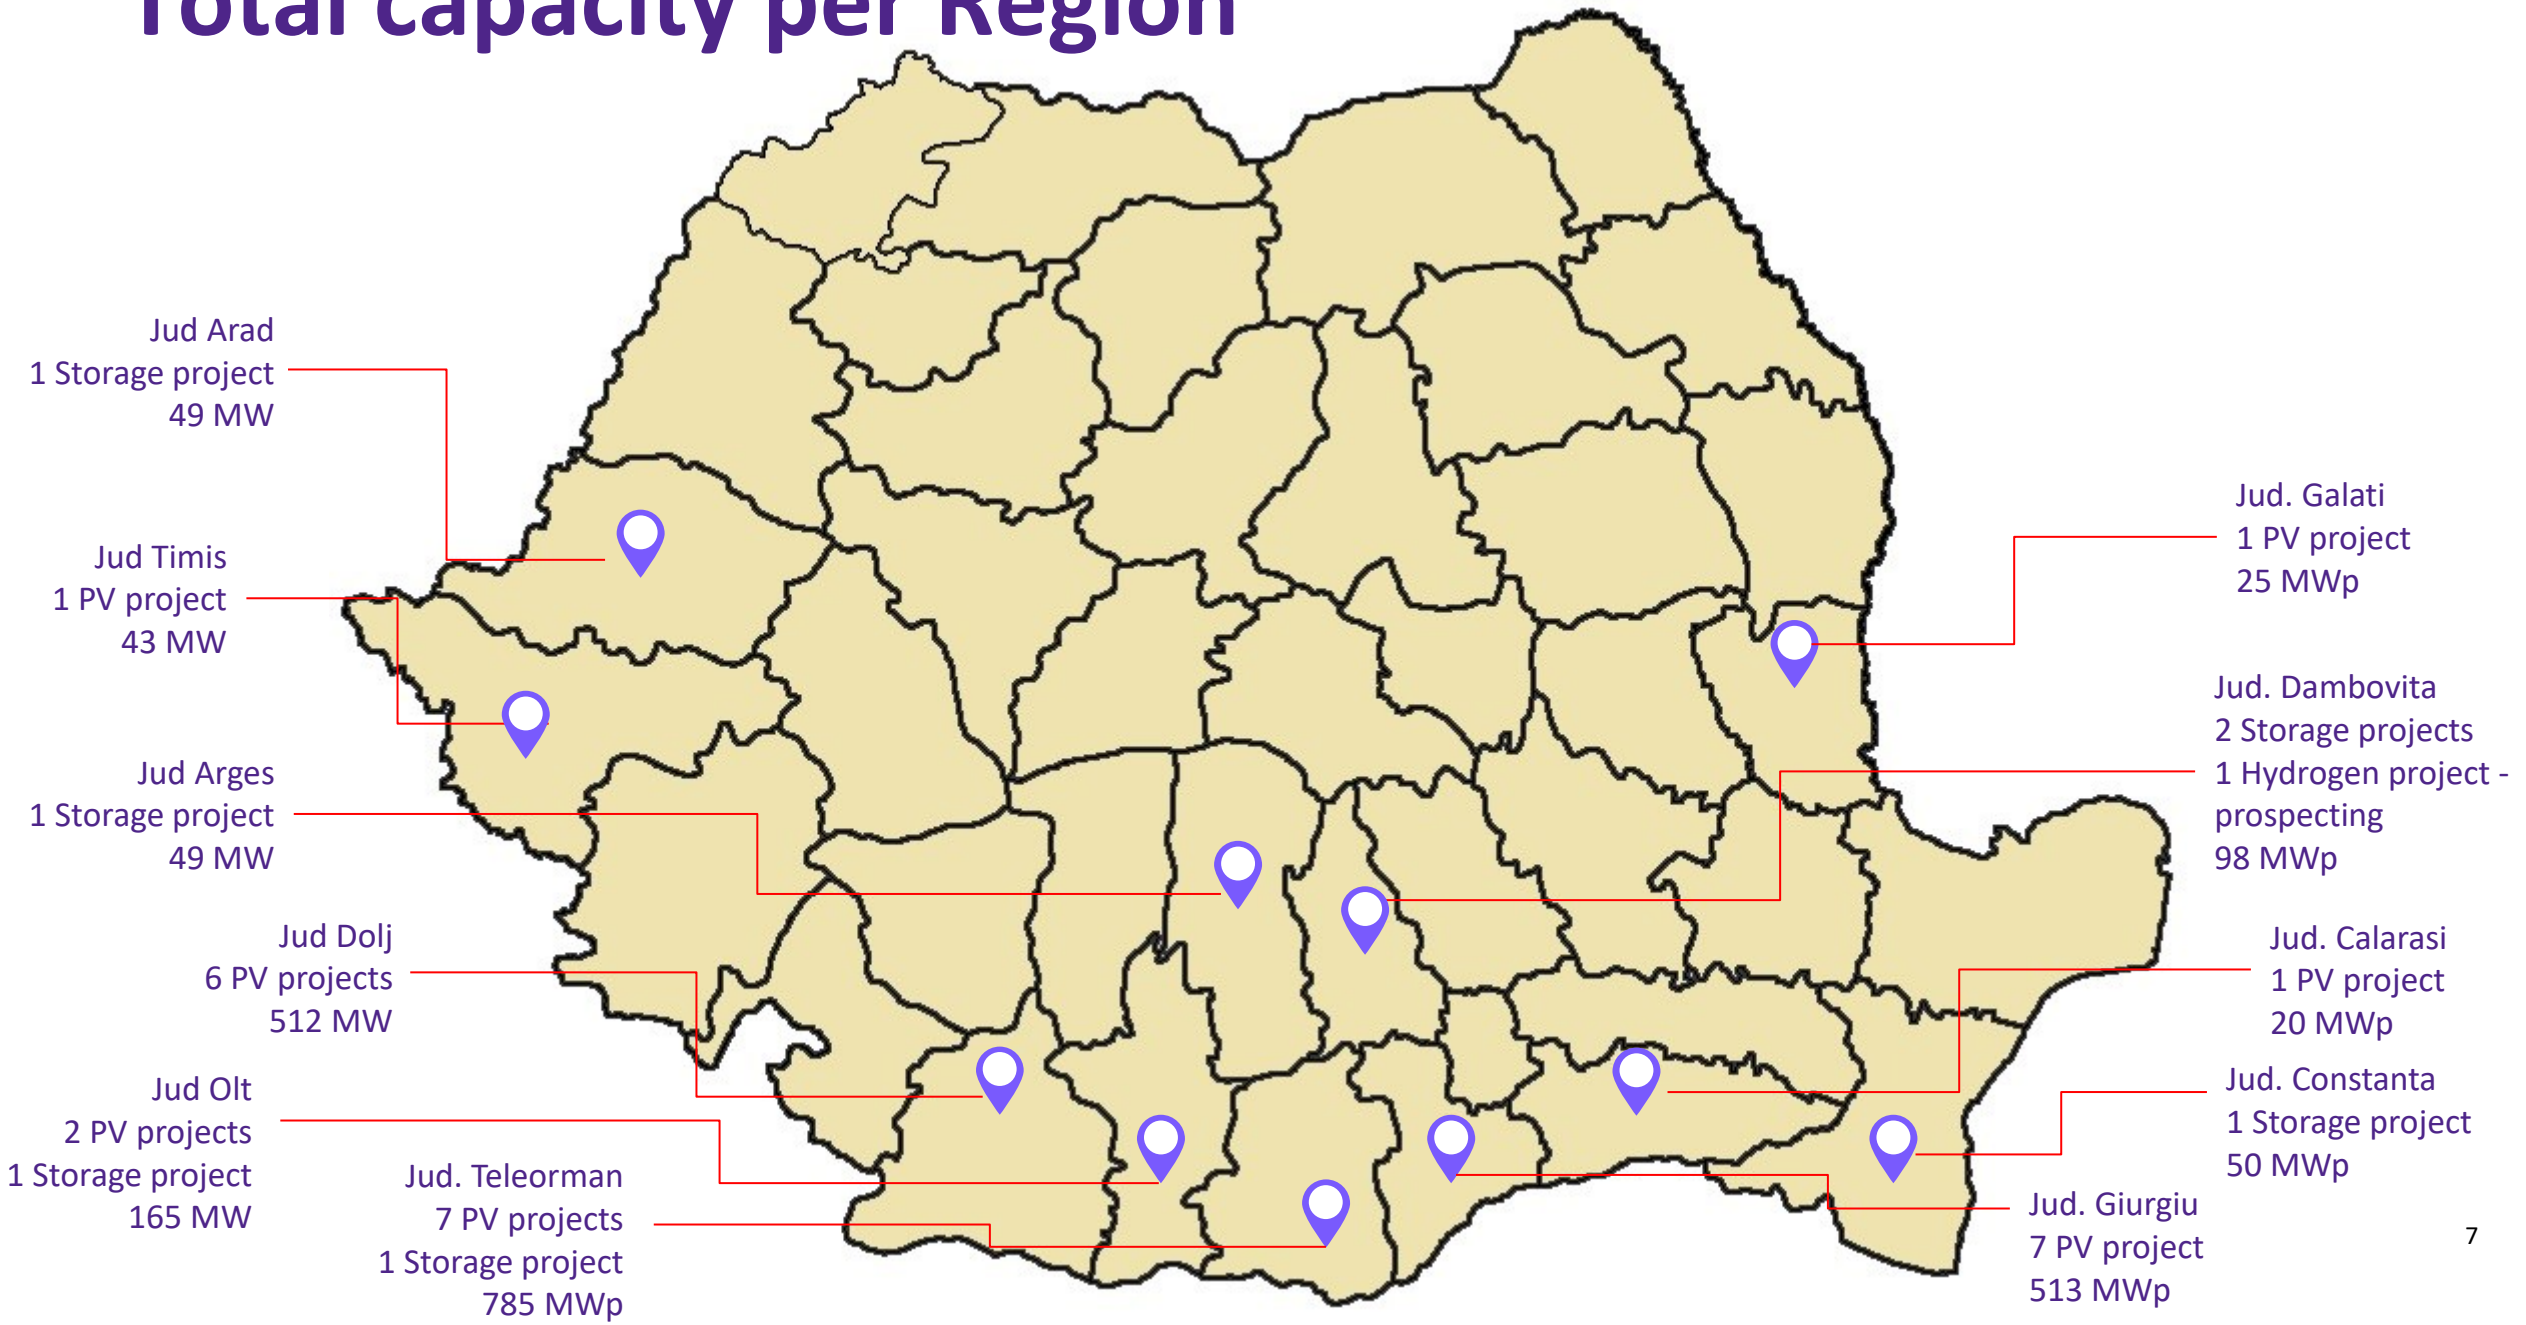

**Total RES pipeline  
in Romania:**

**~ 2.4 GW**

- In operation by the end of 2024: 102MWp
- Advanced stage of construction: 355MWp

**743 MW of solar PV across 10 sites are under construction for international Players.**

# Total capacity per Region

# Our People in Romania

## M Renewables:

- › 70 direct employees today
- › Ongoing growth trajectory with new hires each month
- › Plan to reach a team of 130 people by 2026

# 1,000

Direct & indirect  
employees by 2026

- › For the engineering, building and supervision our RES portfolio
- › Our people are currently based in Milano, our HUB for southeast Europe, as well as throughout the country.

## Reference Projects

 **Mosteni**  
Trivalea-Mosteni, jud Teleorman,  
Romania

AVAILABLE SURFACE: 30 ha

LAND TYPE: Construction

STATUS: In operation

Project capacity  
**26 MWp**

10

## Reference Projects

 **Calugareni**  
Calugareni, jud Giurgiu, Romania

AVAILABLE SURFACE: 88 ha

LAND TYPE: Construction

STATUS: In operation

Project capacity  
**63 MWp**

9

## Reference Projects

 **Calugareni 2 (Kinisi)**  
Calugareni, jud Giurgiu, Romania

AVAILABLE SURFACE: 150 ha

LAND TYPE: Construction

STATUS: In operation

Project capacity  
**130 MWp**

## Reference Projects

 **Mereni**  
Mereni, jud Teleorman, Romania

AVAILABLE SURFACE: 15 ha

LAND TYPE: Construction

STATUS: In operation

Project capacity  
**13 MWp**

10

## Reference Projects

 **Melinesti**  
Jud. Dolj, Romania

AVAILABLE SURFACE: 100 ha

LAND TYPE: Construction

STATUS: In construction

## Reference Projects

 **Racari**  
Jud. Dambovita, Romania

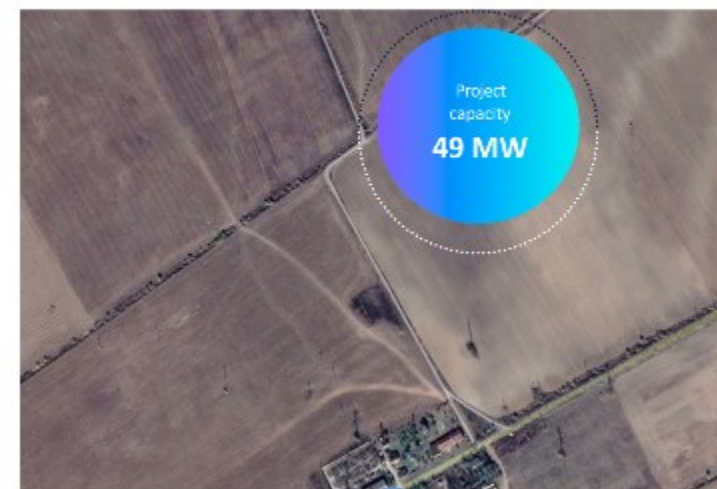

AVAILABLE SURFACE: 2 ha

LAND TYPE: Construction

STATUS: Ready To Build

# Thank you
